Paid Memberships Pro

Open Office Hours

THE WRONG HOST COSTS YOU MORE THAN MONEY.

Slow checkouts that kill conversions. Security gaps that leave member data exposed. Caching that accidentally shows your protected content to the wrong people.

These aren't edge cases. They're what happens when a hosting decision gets made without membership sites in mind.

Most hosts aren't built for what you're building.

Open Office Hours

IN THIS SESSION:

- Shared vs. dedicated hosting and what actually changes for members
- Managed vs. unmanaged WordPress hosting
- The specs that matter (and the ones that don't)
- Caching, security, and checkout considerations
- How to know if your current host is holding you back
