

HOW TO

Your account page is the **most important** **page** after checkout

Turn it from a billing screen into a dashboard members actually use.

SWIPE →

WHY IT MATTERS

The home base.

After someone joins, the account page is where they land again and again. Make it a **welcoming home base** that points members toward courses, events, and content.

START HERE

Greet them by name.

A "Welcome back, [first name]" greeting plus their plan name, renewal date, and status makes the page feel **personal** and **current**.

SURFACE THE CONTENT

Show the good stuff.

Feature courses and progress, recent members-only posts, a video library of **recorded lessons or event replays**, and upcoming events.

HOW TO BUILD IT

Shortcodes and blocks.

Drop in **PMPro shortcodes** like **[pmpro_member]** and **[pmpro_account]**, then use query loop blocks or a page builder like Elementor or Beaver Builder.

THE TAKEAWAY

A dashboard that **guides members** toward engagement

Add upgrade prompts for premium content, forum discussions, and a member directory to give people a reason to come back.
