Headers are posts now.

Build, save, and switch between multiple header designs from **Memberlite > Headers**. Assign one globally in the Customizer.

Same system. Every footer.

Manage footer variations alongside headers. Set a **Global Footer**, plus distinct footers for blog, single posts, and pages.

Design with blocks.

- **Nav Menu block:** — pulls from your registered WordPress menus & menu locations
- **Member Info block:** login & member info area as a block you can place anywhere

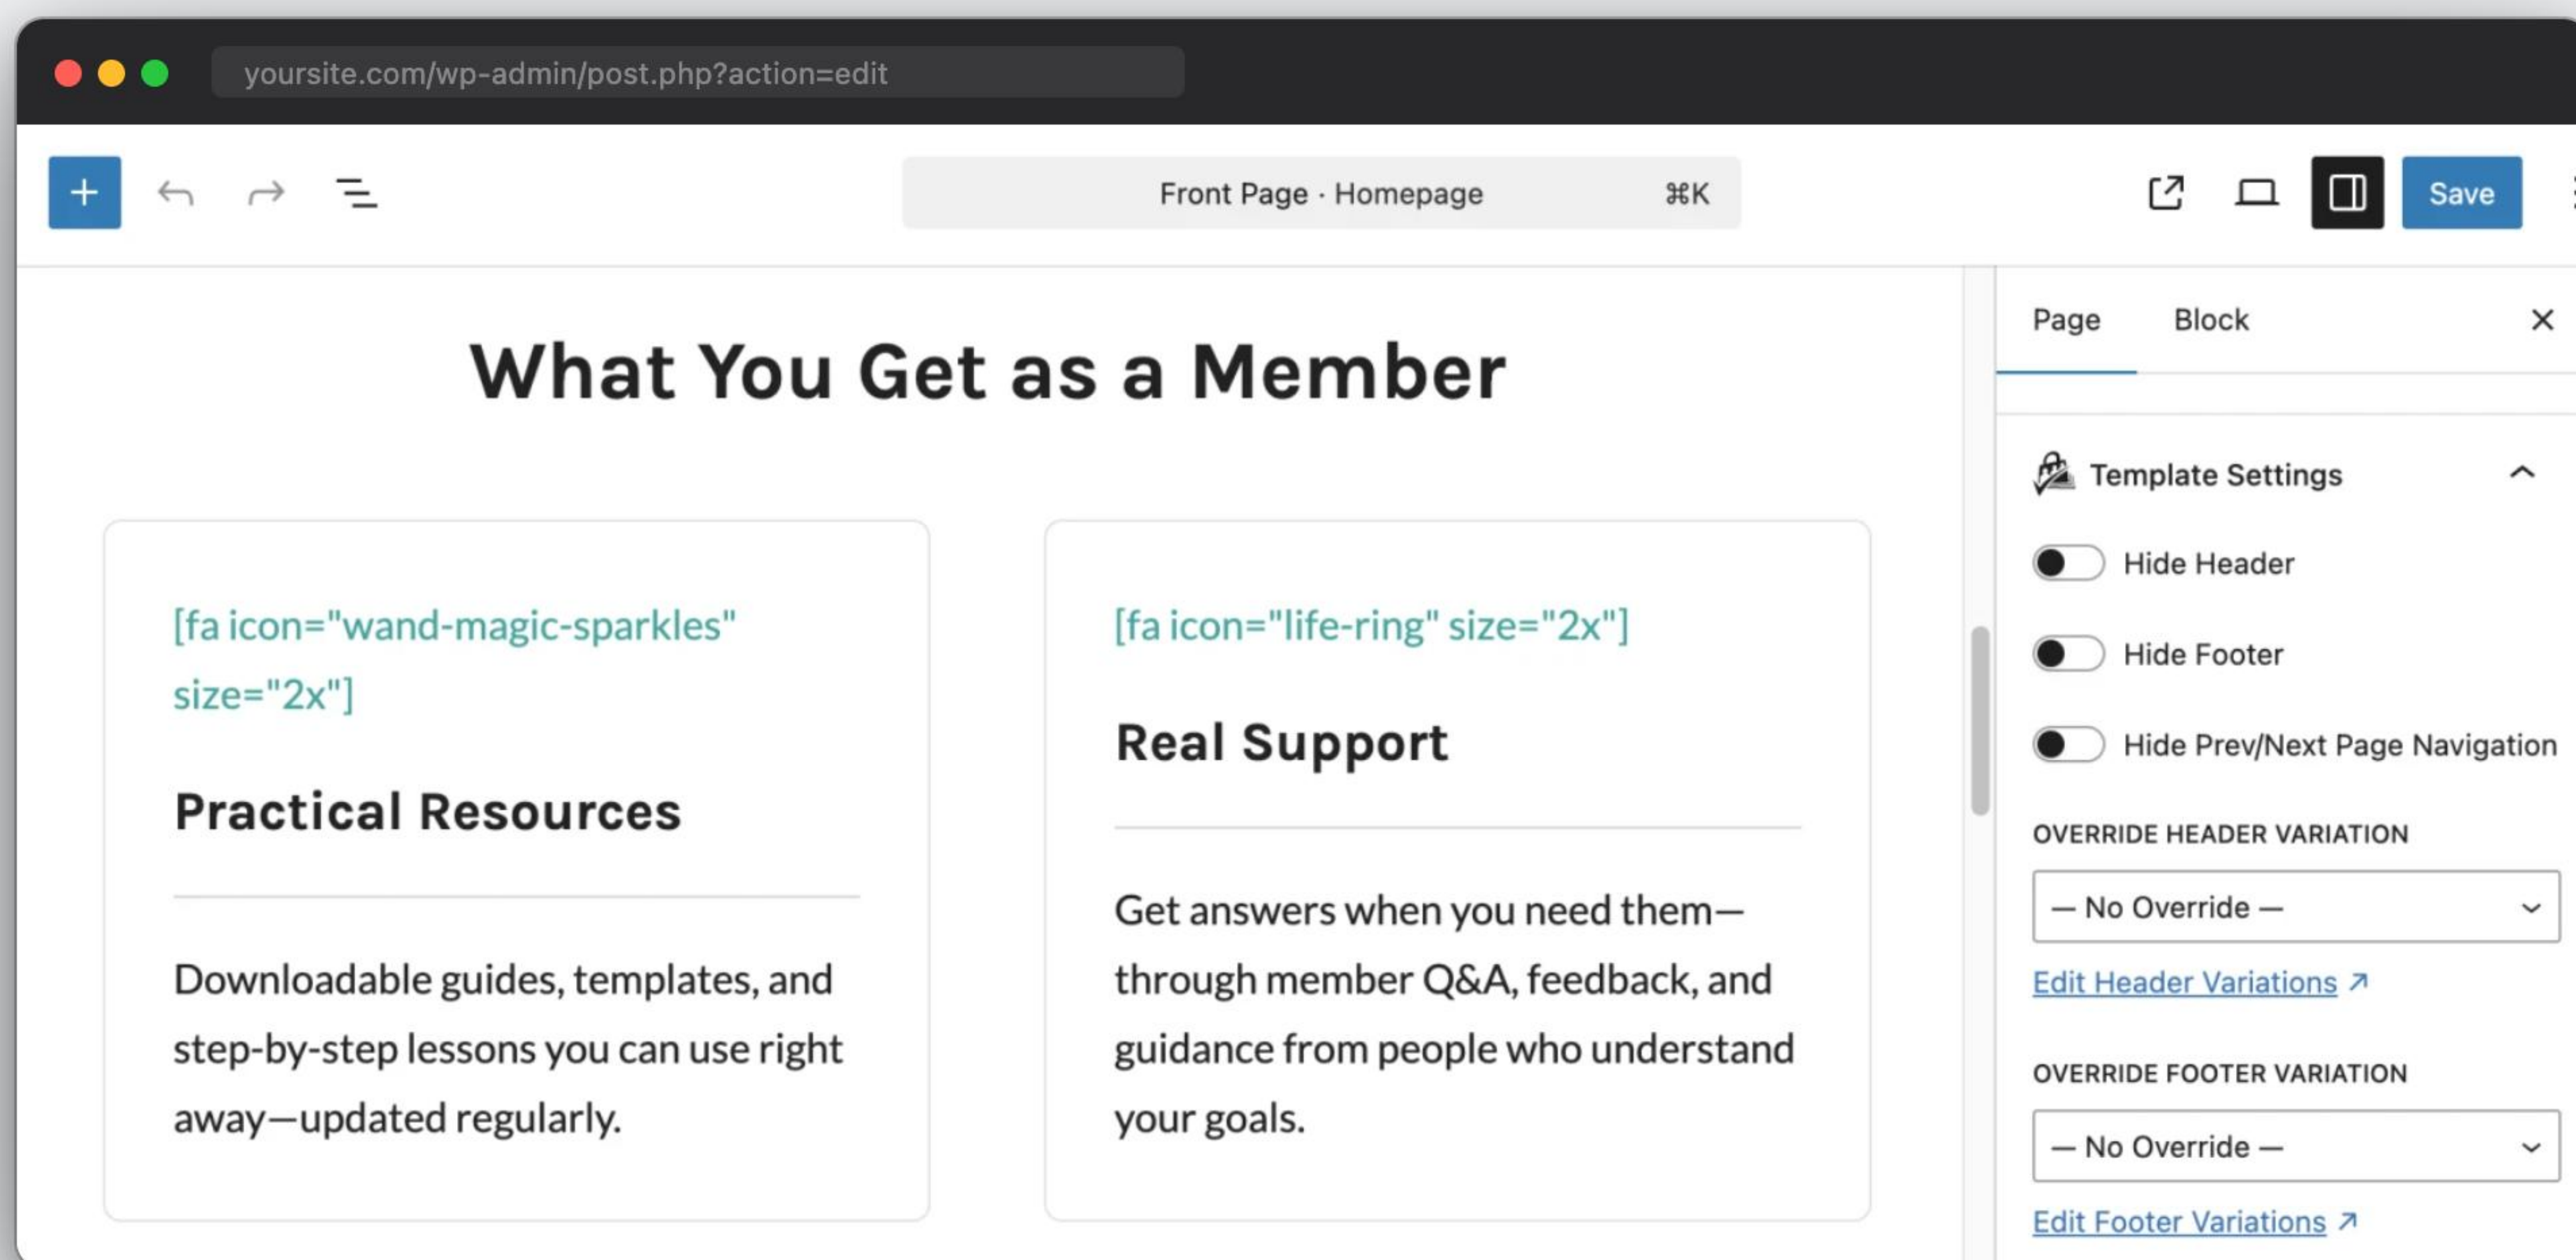

Don't start from a blank canvas.

- **6 header patterns** built-in & ready to customize
- **8 footer patterns** from simple to multi-column
- **Mix and match** or design from scratch in the block editor

Break the rules on any page.

Landing pages, sales pages, single posts: override the global header or footer right from **Template Settings**.

Update Now

Update the open source Memberlite theme from **Appearance » Themes** with the PMPro Update Manager, or download the latest .zip.
