Live Product Launch

PMPro v3.9

What's New

Discounts, billing dates, security,
and developer tools

Paid Memberships Pro

PMPro v3.9 Launch Party

SMARTER DISCOUNT CODES

- Take a percentage or a fixed amount off
- Apply a code to the first payment, renewals, or both
- Select All and Deselect All for levels
- Filter codes by status, usage, and level

Paid Memberships Pro

PMPro v3.9 Launch Party

BILLING DATES, BUILT IN

- Set the first payment for a number of days later or a specific date
- Expire memberships by duration or on a fixed date
- Date pattern builder for seasonal and school-year plans
- Subscription Delays and Set Expiration Dates are now in core

Paid Memberships Pro

SAFER LOGIN AND CHECKOUT

- One captcha setting: reCAPTCHA or Cloudflare Turnstile
- Captcha on login and password reset when activity looks suspicious
- Captcha again after a failed payment to slow card testing
- Past-due and pending payment notices on the Account page

Paid Memberships Pro

PMPro v3.9 Launch Party

MIGRATION AND DEV TOOLS

- Move subscriptions off a deprecated payment gateway
- Dry run by default, with a log and CSV to review
- WP-CLI commands for levels, orders, and members
- Abilities API and MCP access for AI tools
- A much faster Members List on large sites
